WHEREAS, the City of Orangeburg is surrounded by other municipalities and electric cooperatives which have for many years benefited from the opportunity to purchase electricity from the Southeastern Power Administration [SEPA], an agency of the Department of Energy of the United States, and

WHEREAS, Orangeburg was deprived of the opportunity enjoyed by her neighbors because of the absence of a wheeling agreement between SEPA and South Carolina Electric and Gas Company [SCE&G], and

WHEREAS, by awarding Orangeburg a sufficient allocation of Richard B. Russell power to bring Orangeburg's ratio of SEPA power to her maximum demand up to the approximate ratio which will at that time be enjoyed by her neighbors who hold expiring SEPA contracts, SEPA will advance the wide spread use doctrine by giving equal treatment to the largest municipal preference utility in the State of South Carolina while staying well within the one hundred and fifty mile radius of the Hartwell, Clark Hill and Richard B. STATEMENT FROM THE MAYOR
CITY OF ORANGEBURG, S.C.

This statement is not intended to influence any Member of Council nor to criticize or tell them anything, but rather to restate my position, so that the News Media and the citizens of Orangeburg can better understand my actions and decisions. As we all know this Council, which is the governing body of the City of Orangeburg consists of five members, each with equal authority and power. The governing force is a majority of the body. I have only a 20 percent share of the authority, but I have total responsibility for my own actions. I have no problem living with a decision where I find myself in a minority, but I could not and shall not compromise my convictions in order to be with the majority or to make a decision unanimous. I assume and hope that the other Members of Council have the same feeling.

At the Council Meeting of June 1, 1980, we had on the agenda the matter of appointing an Assistant City Administrator with two names to be considered. I favored a person who was not elected and gave my reasons for my decision. Mr. Robert Johnson was elected by majority vote of three to two, which presented me with no problem. As soon as I could contact Mr. Johnson after the meeting, I asked for a conference with him. We met and I told him about my vote and explained my reasons to him and assured him that if he accepted the position, I would work with him and do everything in my power to assist him in his duties with that position. He assured me he would also do all that he could to help me in my efforts to fulfill my duties if he accepted. During that same Council Meeting, and before either prospective applicant for the position was voted on, I proposed and again explained my reasons for making the proposal, that Council abide by its

CITY OF ORANGEBURG, S.C.

own job classification and start whoever was selected at the bottom range of the salary. The range is \$15,000 - \$20,000. As I explained then this is policy and custom and for Council to ignore or manipulate it would in my opinion be detrimental to the morale of the other employees. A person in this position can after a probationary period earn up to \$20,000 under the present policy; however, the last person who held this position for about three years and until several months ago was receiving \$16,400 per year. I hasten to explain further that this classification does not keep Council from paying more or less than the range calls for, as a matter of fact, recently Council appointed a person to a position of Administrator and again that person was elected by a majority decision of three to two and two weeks later when salary was decided upon, the amount was set at the bottom range of \$27,500 and received a majority approval of three to two, but as I was leaving the room and had reached the door, I was called back and told that a Member of Council had changed their vote and it was now three to two to reduce that salary below the minimum range to \$26,000. This action was taken in executive session.

Now that I hope that I have given enough background, I wish to go back to Mr. Johnson. In his letter to Council he stated that the salary offered to him by the Council would amount to his taking a reduction in earnings from his present salary. He also says in his letter that he would like to accept our offer if Council would agree to negotiate salary with him

I think his request should have thoughtful consideration and a reply from Council. The door to his employment with the City is not closed, nor am I attempting to close it. My thinking is that it would not be considerate nor fair to the other employees

CITY OF ORANGEBURG, S.C.

who are employed and work under the current classification policy, but if Council feels differently, the remedy is simple - namely - a motion, a second, and majority support and me. Then we would negotiate with the appointee.
