- C. In all instances, where the service of a wrecker(s) is required as a result of the Department of Public Safety's performance of its official duties, except as provided in Section 9.15.5-A, the Department's Wrecker Rotation Program shall be utilized.

#### **SECTION 9.15.6. Wrecker Rotation Operating Procedures**

- A. A list of wrecker services, which comply with the minimum eligibility requirements set forth by this Article, shall be maintained by the Department of Public Safety Dispatch, based on the order of approved applications. Within seven (7) days of issuance of a business license

for a wrecker certified eligible for participation in the Wrecker Rotation Program or a determination of ineligibility, the Finance Department shall notify the Department of Public Safety, Police Division, to amend the rotation list under the appropriate service classification(s) to reflect the changes. When a wrecker service is deleted from the list, the order of the list shall be moved up to fill the vacancy. - C. Upon the receipt of a request for a wrecker service from a Public Safety Officer, dispatch shall call the wrecker service specified by the owner or driver of the vehicle, or in the absence of a preference, notify the next service on the rotation list for the appropriate classification. In incidents involving multiple vehicles, a separate wrecker service shall be dispatched for each vehicle requiring assistance. Nothing in this Section shall preclude a wrecker service from sending additional equipment to assist the vehicle to which it was dispatched. If the wrecker service is unavailable to respond within the time frame established herein, or fails to respond in a timely manner, the first service call shall be cancelled and the next wrecker service dispatched. All cancelled calls shall be forfeited.
- D. The Department of Public Safety, Police Division, shall maintain a dispatch log which shall contain the following minimum information:
  - 1. The time of request for a wrecker service by Public Safety Officer;
  - 2. Disposition of contact with wrecker service holding the call slot on the rotation list;
  - 3. Time of arrival of wrecker service;
  - 4. The make, model, year and license number of vehicle(s) towed; and
  - 5. Location from which the vehicle was towed.
  - 6. Time wrecker left scene.

#### **SECTION 9.15.7. Wrecker Service Responsibilities**

- A. The primary responsibility of the wrecker service shall be the efficient, prompt and safe removal of the vehicle(s) requested by a Public Safety Officer.
- B. The removal of vehicle(s) shall require the following related task to be performed;
  - 1. All debris resulting from wrecked, vandalized or disabled vehicle(s) shall be removed from the scene of the request for service and disposed of at the cost of the wrecker service. The sweeping of debris onto road shoulders, against curbs or in storm drains is strictly prohibited.

2. The condition and contents of all vehicles towed pursuant to this Article shall be inventoried and certified in the presence of a witness. The witness should be the owner of the vehicle or family member, except in cases where the owner is not present, is incapacitated or has been placed under arrest. When the owner or family member is not available to certify the inventory record, the certification shall be made by a public safety officer. In cases where the need to promptly remove the vehicle prohibits the immediate inventorying of the vehicle, the individual certifying the inventory record shall maintain visual contact with the wrecker until a suitable and safe location can be found to complete the inventory.
  3. Following the completion of the inventory, all personal property contained in the towed vehicle(s) shall be secured by the wrecker service so as to prevent further damage or loss.
- C. Once a wrecker service takes possession of a vehicle, said service shall assume responsibility for protection and safe storage of the vehicle, unless the owner requests the vehicle be towed to a site other than the wrecker service's storage facility, in which case, the wrecker service's responsibility terminates upon the delivery of the vehicle.
- D. All wrecker services shall be responsible for the safe and secure storage of towed vehicles within a storage yard or enclosed building. In the case of storage yards, the yard must be enclosed with a minimum six (6) foot fence with barbed wire or suitable deterrent to unauthorized entry, as well as have satisfactory night lighting. The location, screening and maintenance of all storage facilities located in the City must also comply with the City of Orangeburg's Zoning Ordinance.
- E. All storage facilities shall be manned or have personnel available on call to provide access to vehicle owners during normal working hours, which shall be defined as Monday - Saturday between the hours of 7:00 A.M. and 7:00 P.M. Access during non-working hours shall be arranged with the wrecker service and may result in additional cost to the vehicle owner. Police access shall be provided upon request and without restrictions.
- F. Vehicles for non criminal related towing may be released to the owner without approval of the Department of Public Safety, Police Division, upon presentation of a valid drivers license and proof of ownership. At no time shall impounded vehicles, or vehicles involved in criminal activity, be released without a signed release by the Department of Public Safety.

#### SECTION 9.15.8. Towing and Storage Charges

- A. Operator's fees for towing and storage services rendered pursuant to the rotation provisions of this Article shall not exceed the following maximum charges:
1. Wrecked, disabled, stolen or impounded vehicles \$50.00
  2. Traffic offenses, abandoned vehicles or junked vehicles \$40.00

3. Righting overturned vehicles or removal of vehicle from shallow ditch (off road recovery) \$15.00 (extra)
4. Use of Dollies \$15.00 (extra)
5. Tows between 12:01 A.M. and 7:00 A.M., Sundays, Christmas, New Year's Day, Memorial Day, Fourth of July, Labor Day and Thanksgiving \$15.00 (extra)
6. Storage per day (after 1st 8 hours) and every 24 hours thereafter \$ 5.00 outside storage  
\$10.00 covered storage
7. Winching a car, van or pick up truck out of deep ditch or from over an embankment (Normal Duty Wrecker) \$40.00 per hour
8. Heavy Duty Wrecker \$95.00 1st hour  
\$85.00 per hour thereafter

Hourly rates shall be based on the actual length of time for the service call from arrival at the service location to delivery of the vehicle, and shall be billed with a one-hour minimum and quarter-hour increments thereafter.

The above described rate schedule shall not apply when a vehicle owner requests a wrecker service of his/her choice or provides instructions to deliver the vehicle to an alternate location which results in a tow distance substantially greater than the distance to the wrecker service's standard storage facility.

In cases of extraordinary circumstances, i.e., a train/vehicle accident, or a major truck accident with a cargo spill, wrecker services may bill the vehicle owner(s) based on the actual cost incurred. The Chief of the Department of Public Safety, Police Division, shall be notified in writing within twenty-four (24) hours of the issuance of a wrecker service bill which deviates from the maximum fee schedule. Said notification shall contain sufficient justification for the deviation.

- B. The above established rates shall be reviewed and amended, if applicable, every twenty-four (24) months following adoption.
- C. In the case where more than one wrecker service is needed to tow or assist one vehicle, other wrecker service(s) may be requested by the primary wrecker service to render assistance; however, only one bill shall be submitted to the owner of the vehicle. Wrecker services called to assist shall submit and collect their fees through the primary wrecker service.
- D. Once a wrecker service is dispatched, the vehicle owner shall be charged according to the fee schedule for "no tows," or in case of administrative errors, shall be compensated by placing the affected wrecker service at the top of the rotation list to receive the next service call.

#### SECTION 9.15.9. Removal of Wrecker Services

Any wrecker service operated in violation of the terms of this Article shall be subject to the revocation of its wrecker rotation business license as provided in Section 7-2.21 of the Orangeburg Municipal Code.

SECTION 9.15.10. Indemnification

All wrecker services approved for participation in the Department of Public Safety's Wrecker Rotation Program agree to indemnify and save harmless the City, its employees, agents and assigns from suit, and claims or action of every nature and description brought for, or on account of or sustained by any person or person(s) as a result of any act or acts of the wrecker company, its employees, agents or assigns in the performance of services under the terms of this contract.
